2. Interpretation

(1) In these Regulations,

- (a) "automated hook stripper" (commonly known as a crucifier) means a device through which the groundline can be passed during gear retrieval which allows the groundline and hooks to pass freely, but does not allow fish to pass, thereby removing fish from the hooks;
- (b) "charter vessel" means a vessel used for hire in sport fishing for halibut, but not including a vessel without a hired operator;
- (c) "commercial fishing" means fishing the resulting catch of which either is or is intended to be sold or bartered;
- (d) "Commission" means the International Pacific Halibut Commission;
- (e) "fishery officer" means any State, Federal, or Provincial officer authorized to enforce these regulations including, but not limited to, the National Marine Fisheries Service (NMFS), Canadian Department of Fisheries and Oceans (DFO), Alaska Department of Fish and Wildlife Protection (ADFWP), and the United States Coast Guard (USCG);
- (f) "fishing" means the taking, harvesting, or catching of fish, or any activity that can reasonably be expected to result in the taking, harvesting, or catching of fish, including specifically the deployment of any amount or component part of setline gear anywhere in the maritime area;
- (g) "fishing period limit" means the maximum amount of halibut that may be retained and landed by a vessel during one fishing period;
- (h) "land" with respect to halibut means to bring to shore and to offload;
- (i) "license" means a halibut fishing license issued by the Commission pursuant to section 3;
- (j) "maritime area", in respect of the fisheries jurisdiction of a Contracting Party, includes without distinction areas within and seaward of the territorial sea or internal waters of that Party;
- (k) "operator", with respect to any vessel, means the master or other individual on board and in charge of that vessel;
- (l) "overall length" of a vessel means the horizontal distance, rounded to the nearest foot, between the foremost part of the stem and the aftermost part of the stern (excluding bowsprits, rudders, outboard motor brackets, and similar fittings or attachments);
- (m) "person" includes an individual, corporation, firm, or association;
- (n) "regulatory area" means an area referred to in section 6;

PACIFIC HALIBUT FISHERY REGULATIONS 1991

- (o) "setline gear" means one or more stationary, buoyed, and anchored lines with hooks attached;
 - (p) "sport fishing" means all fishing other than commercial fishing and treaty Indian ceremonial and subsistence fishing;
 - (q) "tender" means any vessel that buys or obtains fish directly from a catching vessel and transports it to a port of landing or fish processor.
- (2) In these Regulations, all bearings are true and all positions are determined by the most recent charts issued by the National Ocean Service or the Canadian Hydrographic Service.

3. Licensing Vessels

- (1) No person shall operate or fish for halibut from a vessel, nor possess halibut on board a vessel used either for commercial fishing or as a charter vessel, unless the Commission has issued a license in respect of that vessel.
- (2) A license issued in respect of a vessel referred to in paragraph (1) must be carried on board that vessel at all times and the vessel operator shall permit its inspection by fishery officers of the Contracting Parties.
- (3) The Commission shall issue a license in respect of a vessel, without fee from its office in Seattle, Washington, upon receipt of a completed, written, and signed "Application for Vessel License for the Halibut Fishery" form.
- (4) Application forms may be obtained from fishery officers of either Contracting Party, or from the Commission.
- (5) Information on an "Application for Vessel License for the Halibut Fishery" form must be accurate.
- (6) The "Application for Vessel License for the Halibut Fishery" form shall be completed and signed by the vessel owner.
- (7) Licenses issued under this section shall be valid only during the year in which they are issued.
- (8) A new license is required for a vessel that is sold, transferred, renamed, or redocumented.
- (9) The license required under this section is in addition to any license, however designated, that is required under the laws of Canada or any of its Provinces or the United States or any of its States.
- (10) The United States may suspend, revoke, or modify any license issued under this section under policies and procedures in 15 CFR Part 904.

4. In-season Actions

 - (a) will not result in exceeding the catch limit established preseason for each regulatory area;
 - (b) is consistent with the Convention between the United States of America and Canada for the Preservation of the Halibut Fishery of the Northern Pacific Ocean and Bering Sea, and applicable domestic law of either Canada or the United States; and

PACIFIC HALIBUT FISHERY REGULATIONS 1991

- (c) is consistent, to the maximum extent practicable, with any domestic catch sharing plans developed by the United States or Canadian governments.
