PURPOSE

To propose the daily bag limit of up to three fish per day per person in the recreational fishery in IPHC Regulatory Area 2B beginning on or after 1 August of each year.

EXPLANATORY MEMORANDUM

Canada is proposing to keep changes made to section 28 (Recreational (Sport) Fishing for Pacific Halibut – IPHC Regulatory Area 2B) of the IPHC Fishery Regulations to allow a maximum daily bag limit of three (3) fish per day, per person, beginning on or after 1 August. The purpose of the proposed change is to align IPHC fishery regulations with Canada's domestic sportfishing regulations, to simplify unnecessary regulatory complexity, and to retain Canada's ability and autonomy to manage its domestic fishery.

The Commission previously supported and approved an increase in the Canadian daily bag limit from two (2) per day, to three (3) per day, on a one-year basis from 1 April 2021 to 31 March 2022, and once again from 1 April 2022 to 31 March 2023. The Commission then approved this provision to be in effect from 2023-2025, inclusive. Annually the Sport Fishing Advisory Board (SFAB) works with Fisheries and Oceans Canada (DFO) to model a pre-season fishing plan with the objectives of maintaining a full recreational season (February to December) and supporting the recreational sector's access to the Total Allowable Catch (TAC) it is allocated. Canada has chosen to not utilize this conditional flexibility since it was put into place in 2023, due to reduced TAC available to the sector. However, this flexibility has increased Canadian domestic benefits, whilst allowing for the effective in-season management of the resource.

The IPHC daily bag limit of two (2) fish per day constrains Canada's flexibility to make critical in-season changes to the fishing plan to support meeting TAC goals and Canadian domestic fishery objectives.

The SFAB has a long history of collaborating with DFO in Canada's endeavours to achieve IPHC objectives, while maximizing Canadian domestic objectives. DFO and SFAB meet monthly in-season to review timely and robust recreational catch estimates to consider and evaluate appropriate fishery management measures. Increased regulatory flexibility would augment the existing successful management tool kit to achieve improved fishery performance.

RECOMMENDATIONS

That the Commission:

- 1) **NOTE** IPHC Fishery Regulation proposal IPHC-2025-IM101-PropB2, which proposes the daily bag limit of up to three fish per day per person beginning on or after 1 August in the recreational fishery in IPHC Regulatory Area 2B.
