

Budget Estimate for FY2018, 2019, and tentatively for 2020

PREPARED BY: IPHC SECRETARIAT (M. LARSEN; 10 NOVEMBER 2017)

PURPOSE

1. To provide the Commission with the proposed current (FY2018) budget estimate (financial period: 1 October 2017 to 30 September 2018), as well as that for FY2019 and tentatively for 2020.

PROPOSED CONTRIBUTIONS TO THE AUTONOMOUS BUDGET IN FY2018: INCOME (US\$)

2. For FY2018, the IPHC anticipates an increase in General/Supplemental income and an increase in expenses. The net result is a projected use of **\$713K** in carryover funds to balance overall income and expenses (**Table 1**).
3. The FY2018 proposed budget is in line with trends seen in 2017. A number of items of interest regarding income are:
 - a) **U.S. Contribution** – In FY2018, indications are that the U.S. Government will appropriate **\$4.2M** to the IPHC (**Table 1**). As currently constructed, the U.S. contributions included funding for pension deficits and headquarters lease costs.
 - b) **Canadian Contribution** – In FY2018, the Canadian government contribution is estimated at **\$1,511,508 (USD)** (**Table 1**). The Canadian contributions includes **\$1,453,704** for general contributions (as proposed at the AM093 meeting), as well as a separate amount of **\$54,000** to cover pension deficit payments.
 - c) **Fish Sales** – In FY2017 the IPHC saw prices decrease coast-wide. We anticipate a continued decline in the Pacific halibut market with price projections at 90% to 95% of 2017 prices in most areas (93% in aggregate). Total sales from the Fishery-Independent Setline Survey (FISS) program and other Research activities are expected to be **\$5.0M** (**Table 1**).

PROPOSED EXPENDITURES FOR THE FY2018 BUDGET (US\$)

4. For FY2018 expenses are anticipated to be 11% higher than FY2017 actuals and 7% higher than the FY 2017 budget (**Table 4**).
5. Items of interest include:
 - a) **Office Staff Payroll** – The IPHC currently has multiple unfilled positions undergoing hiring actions, evaluations or are proposed.
 - i. Fisheries Statistics and Services Branch
 - i. Setline Survey Program - currently hiring for one position for the setline survey program which was vacated last year with staff changes and filled on a temporary basis for FY2017.
 - ii. Port Sampling Program – Elimination of the Bellingham port sampler position. Further analysis is being undertaken to evaluate how to fill the duties within the program.

- b. Administrative Services Branch – currently hiring for one position. Position was changed with the movement of a staff member to part-time in June 2017.
 - c. Biological and Ecosystems Sciences Branch
 - i. Laboratory Technician – The two new external research grants require preparation and processing of biological samples and other laboratory duties. We are currently planning to hire for a two-year contract in January 2018. Position is funded partially (50%) by the two grants over the two year period.
 - d. Quantitative Sciences Branch
 - i. Management Strategy Evaluations (MSE) programmer position – Anticipate filling a two-year contract position in March 2018. Position had been approved for FY2016 and FY2017 but unfilled due to task sequencing requirements within the MSE process.
 - ii. Post-Doctoral position – The proposed budget includes a two-year commitment for a post-doctoral position. The position will be used to work on projects within the Quantitative Sciences Branch
- b) **Personnel Benefits** – The IPHC anticipates higher than average increases in health care costs due to uncertainties with the Affordable Care Act. Current projections include an 11.5% increase for 2018 (**Table 4-1**). Other benefit and insurance costs are stable with the exception of the employer pension payments (both per employee and deficit payments) resulting from the triennial valuation of the plan. An additional benefit (Cancer Care) is included for office and port staff (Table 5-1 - \$15,003).
- c) **I.T Initiatives** – The IPHC is planning a series of additional information technology projects for FY2018 and beyond. These include:
- a. Website redesign: Phase II
 - b. Managed IT services
 - c. Data Warehouse Development
 - d. Security Analysis
- d) **Research Lab buildout** – The current lab space will require additional equipment and supplies for conducting a number of the proposed experiments - **\$50,000 (Table 8 – Scientific Equipment)**. The budget for FY2017 was \$84,600 and most of the purchases were deferred to FY2018 while the lab was under renovation.
- e) **Setline survey Regulatory Area 2B/2C Expansion** – For 2018 the IPHC will expand the survey in Regulatory Areas 2B and 2C. The setline survey is integrated into the Regulatory Area 2B and 2C regions (**Table 6-1**).
- f) **Performance Review** – Paper IPHC-2017-AM093-18 described the proposed performance review. FY2018 budget of \$28,150 and FY2019 budget of \$23,465– Total \$51,615.

EXTRA-BUDGETARY FUNDS

6. The IPHC will continue to receive a grant for costs associated to the implementation of the extended sampling in Alaska and a contract for the collection of Sablefish logbooks from National Marine Fisheries Service. Included in FY2018 and FY2019 are two new grants to support the Discard Mortality and Growth Marker projects. The Commission will also receive

funds from the Department of Fisheries and Oceans, Canada and Washington Department of Fish and Wildlife for additional work being conducted on the fisheries-independent surveys in 2018 (**Table 3**).

PROPOSED EXPENDITURES FOR THE FY2019 AND FY2020 BUDGETS (US\$)

1. **FY2019 INCOME AND EXPENSES** – The IPHC budget for FY2019 has a proposed \$478K USD in expenses above the projected income for the fiscal year. This will reduce the carryover to \$2.67M. The primary changes in the income are based on a change in Canadian contribution to \$1.57M and \$4.4M for the United States. This is a proposed increase of 3% annual increase from FY2018 for both contributions. Change in income (and expenses) for fish sales is based on the setline survey expansion in Regulatory Areas 3A and 3B. Other cost assumptions include a 2.5% increase in salaries (based on cost of living and step increases) and a 5% increase in health care costs.
2. **FY2020 INCOME AND EXPENSES** – The IPHC notional budget for FY2020 has a proposed \$570K in expenses above the projected income for the fiscal year. This will reduce the aggregate carryover to \$2.2M. The primary changes in the income are based on a 3% increase in U.S. and Canadian contributions to \$1.6M and \$4.5M respectively. Change in income (and expenses) for fish sales is based a return to the standard series of setline survey stations across the range. Other cost assumptions include a 2.5% increase in salaries (based on cost of living and step increases) and a 5% increase in health care costs.

RECOMMENDATION/S

- 1) That the Commission:
 - a. **NOTE** paper IPHC-2017-IM093-17 which provided the Commission with the proposed FY2018 budget (financial period: 1 October 2017 to 30 September 2018), as well as FY2019 and tentatively for FY2020.
