MSE Program of Work

Agenda Item 7

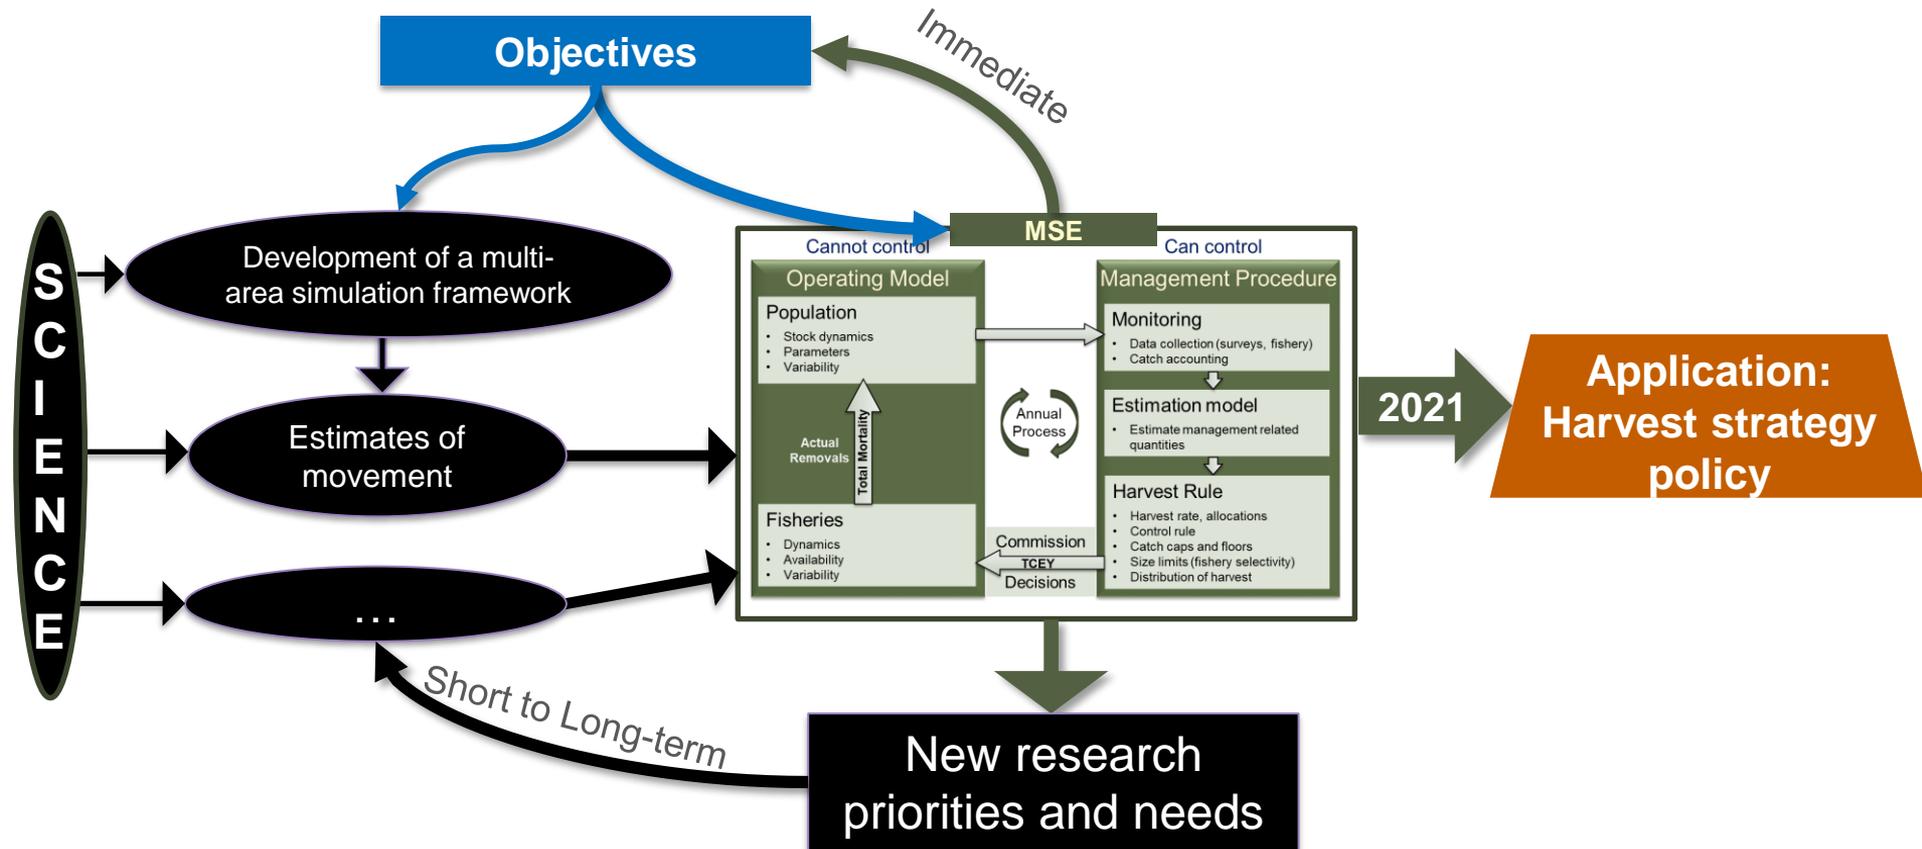

IPHC-2019-MSAB014-09

Program of Work for delivery in 2021

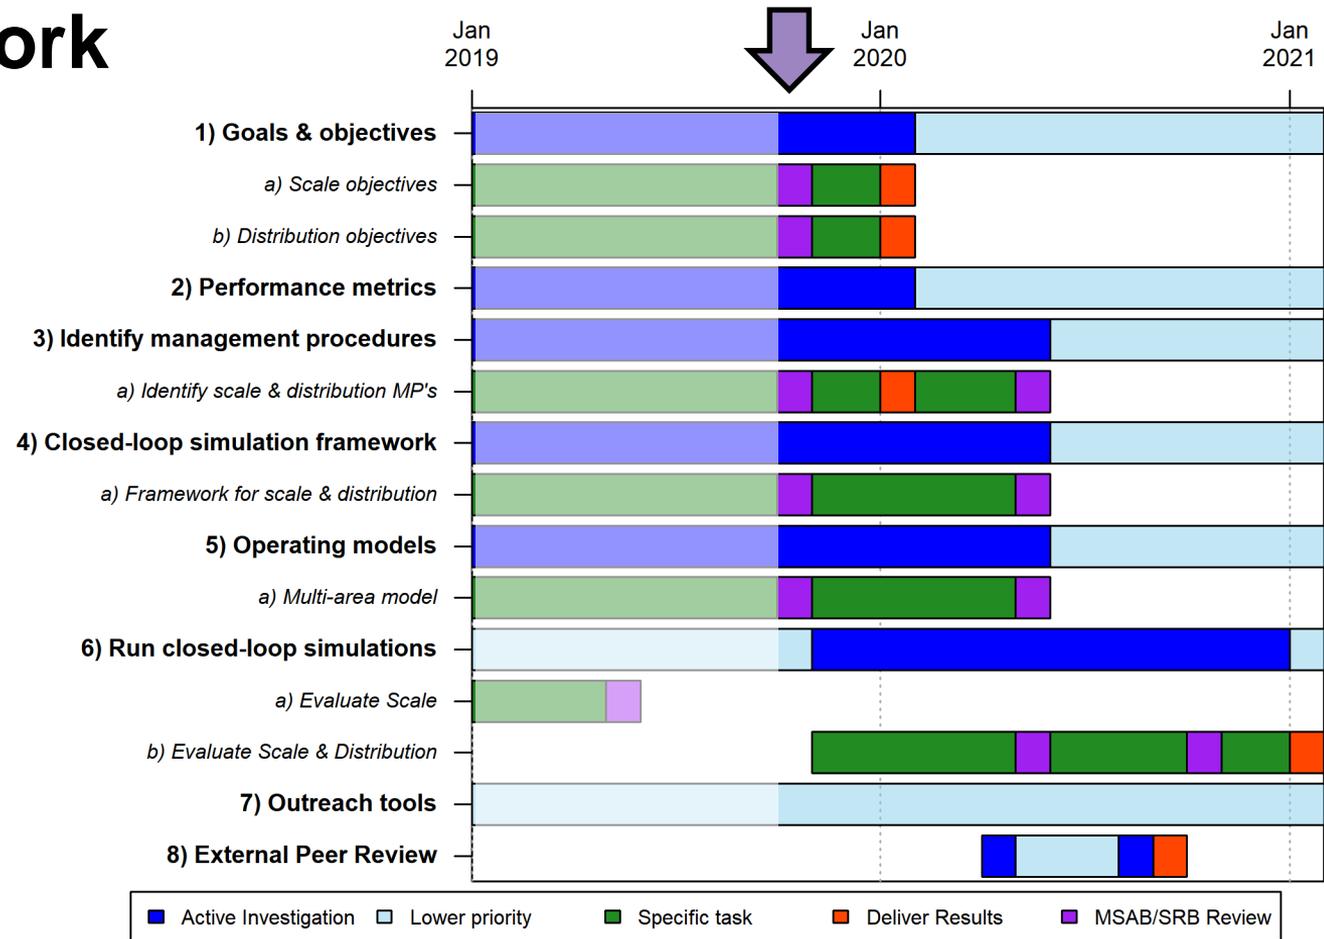

- Decide on priority objectives (MSAB014)
- Identify realistic scale and distribution management procedures to evaluate (MSAB014 & 015)
- Continue operating model development
 - Finalize coding & testing, run close loop simulations
- Evaluate results (MSAB015 & 016)
- Develop tools to engage with stakeholders and facilitate communication

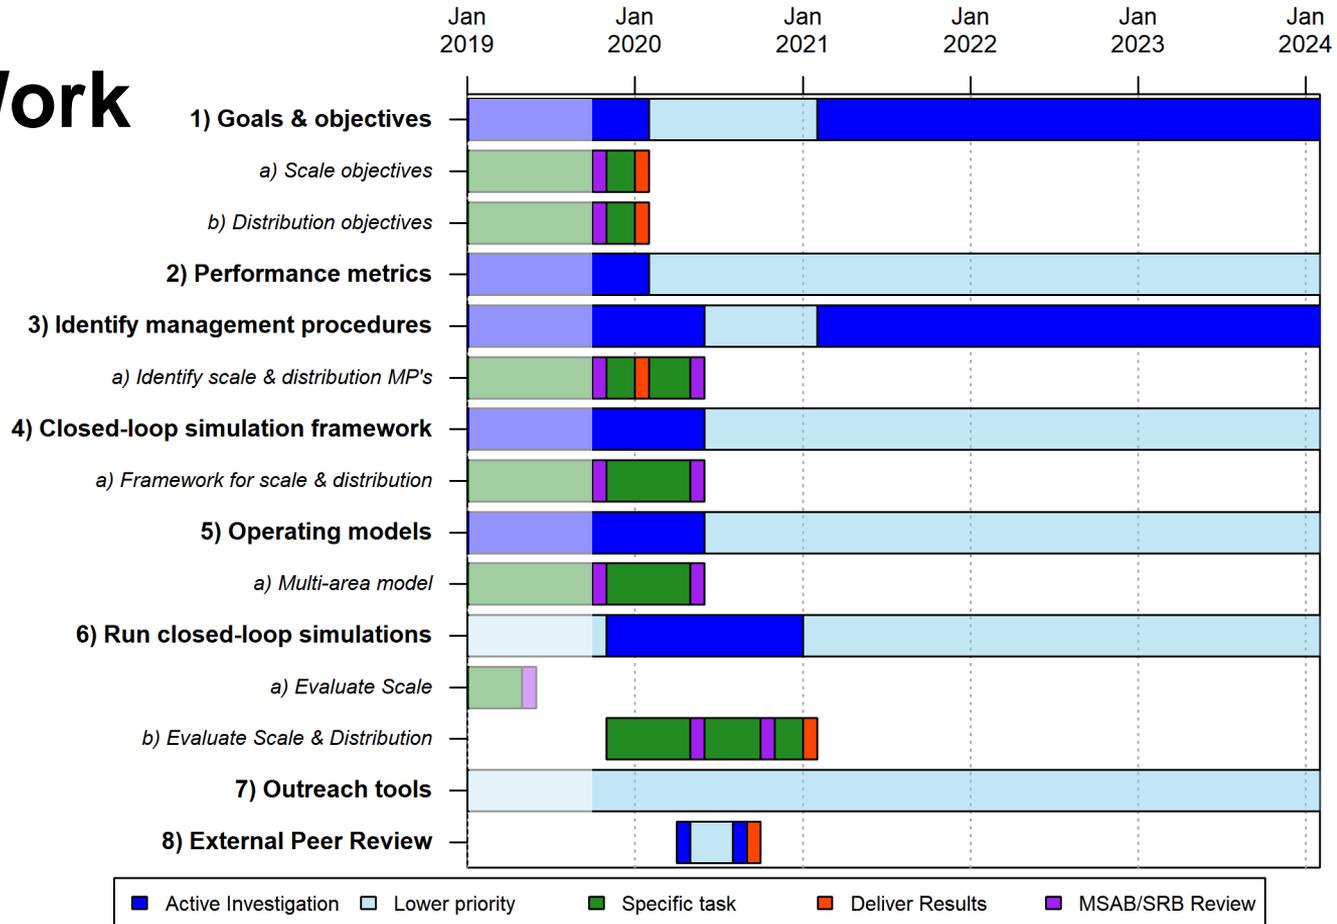

Learning from the MSE

Program of Work for delivery in 2021

Five-year Program of Work

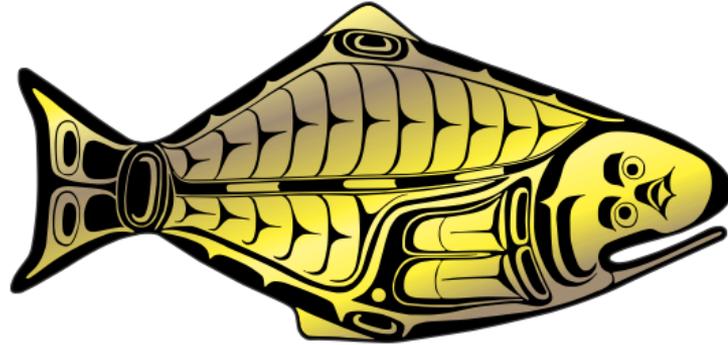

Potential topics to consider in 2021 & beyond

- Continue similar investigations
 - Improve framework & OM, additional distribution MPs, ...
- Goal related to discard mortality
 - Directed and non-directed
- Assessment model
 - Multi-year, something simpler like survey-based
- Expand use of simulation/MSE framework
 - Prioritize research, data to collect, test assumptions, ...
