TO WHOM IT MAY CONCERN:

The Alaska Fisheries Science Center (AFSC), National Marine Fisheries Service (NMFS), in Newport, Oregon is hereby granted permission to collect and retain 250 live Pacific halibut (*Hippoglossus stenolepis*) for research purposes in 2019. These fish (age-0) will be collected from Chiniak Bay and inshore waters near Kodiak, Alaska, to be held at the Kodiak Fisheries Research Center (KFRC), and transported to the Hatfield Marine Science Center, Newport, Oregon. Collection and transport are to occur between 1 July, 2019 and 31 December, 2019. Fish will be collected using charter or AFSC vessels as specified by the responsible person at NMFS, Dr. Thomas Hurst, Acting Program Manager of the Fisheries Behavior Ecology Program (541) 867-0222.

To further its collaboration with the Oregon Coast Aquarium, The AFSC is hereby granted permission to transfer to the Oregon Coast Aquarium up to 20 live Pacific halibut collected under this permit that are no longer necessary for the purposes of scientific research at AFSC. Transferred fish from AFSC to the Oregon Coast Aquarium may not be sold and must be used solely for educational purposes.

The AFSC is requested to notify the IPHC after each collection and transport of halibut to the KFRC and eventually to the AFSC. In addition, the AFSC is requested to notify the IPHC when the total number of halibut collected and transported to the AFSC is reached as well as the final number of halibut transferred to the Oregon Coast Aquarium. Finally, the AFSC is requested to provide the IPHC with a brief report summarizing the collection, transfer and research purpose and outcome (if available) of halibut at the AFSC by 31 December 2019.

Pacific halibut obtained under this permit may not be retained for purposes other than scientific research and/or educational purposes and may not be sold. Pacific halibut captured in excess of the limits specified in this permit must be returned to the sea with a minimum of delay and injury.

Sincerely,

David T. Wilson, Ph.D.
Executive Director
