All waters in the Bering Sea north of 55°00'00'' N. latitude in Isanotski Strait that are enclosed by a line from Cape Sarichef Light (54°36'00'' N. latitude, 164°55'42'' W. longitude) to a point at 56°20'00'' N. latitude, 168°30'00'' W. longitude; thence to a point at 58°21'25'' N. latitude, 163°00'00'' W. longitude; thence to Strogonof Point (56°53'18'' N. latitude, 158°50'37'' W. longitude); and then along the northern coasts of the Alaska Peninsula and Unimak Island to the point of origin at Cape Sarichef Light are closed to Pacific halibut fishing and no person shall fish for Pacific halibut therein or have Pacific halibut in his/her possession while in those waters except in the course of a continuous transit across those waters. All waters in Isanotski Strait between 55°00'00'' N. latitude and 54°49'00'' N. latitude are closed to Pacific halibut fishing.

12. Commercial Catch Limits

- (1) The total allowable commercial catch of Pacific halibut to be taken during the commercial Pacific halibut fishing periods specified in Section 9 shall be limited to the net weights expressed in pounds or metric tons shown in the following table:

IPHC Regulatory Area	Commercial Catch Limit - net weight	
	Pounds	Metric tons
2A: directed commercial, and incidental commercial catch during salmon troll fishery	265,402	120.38
2A: incidental commercial during sablefish fishery	70,000	31.75
2B ⁴	6,271,971	2,844.92
2C ⁵	4,212,000	1,910.53
3A ⁶	7,739,000	3,510.36
3B	3,140,000	1,424.28
4A	1,390,000	630.49
4B	1,140,000	517.09
4C	752,000	341.10
4D	752,000	341.10
4E	196,000	88.90

- (2) Notwithstanding paragraph (1), regulations pertaining to the division of the IPHC Regulatory Area 2A catch limit between the directed commercial fishery and the incidental catch fishery as described in paragraph (4) of Section 9 will be promulgated by NOAA Fisheries and published in the Federal Register.
- (3) The Commission shall determine and announce to the public the date on which the catch limit for IPHC Regulatory Area 2A will be taken.
- (4) Notwithstanding paragraph (1), the commercial fishing in IPHC Regulatory Area 2B will close only when all Individual Vessel Quotas (IVQs) assigned by DFO are taken, or 7 November, whichever is earlier.
- (5) Notwithstanding paragraph (1), IPHC Regulatory Areas 2C, 3A, 3B, 4A, 4B, 4C, 4D, and 4E will each close only when all Individual Fishing Quotas (IFQ) and all CDQs issued by NOAA Fisheries have been taken, or 7 November, whichever is earlier.

- 10 (6) If the Commission determines that the catch limit specified for IPHC Regulatory Area 2A in

paragraph (1) would be exceeded in an unrestricted 10-hour fishing period as specified in paragraph (2) of section 9, the catch limit for that area shall be considered to have been taken and the directed commercial fishery closed as announced by the Commission.

- (7) When under paragraphs (2), (3), and (6) the Commission has announced a date on which the catch limit for IPHC Regulatory Area 2A will be taken, no person shall fish for Pacific halibut in that area after that date for the rest of the year, unless the Commission has announced the reopening of that area for Pacific halibut fishing.
- (8) Notwithstanding paragraph (1), the total allowable catch of Pacific halibut that may be taken in the IPHC Regulatory Area 4E directed commercial fishery is equal to the combined annual catch limits specified for the IPHC Regulatory Areas 4D and 4E CDQ fisheries and any IPHC Regulatory Area 4D IFQ received by transfer by a CDQ organization. The annual IPHC Regulatory Area 4D catch limit will decrease by the equivalent amount of CDQ and IFQ received by transfer by a CDQ organization taken in IPHC Regulatory Area 4E in excess of the annual IPHC Regulatory Area 4E catch limit.
- (9) Notwithstanding paragraph (1), the total allowable catch of Pacific halibut that may be taken in the IPHC Regulatory Area 4D directed commercial fishery is equal to the combined annual catch limits specified for IPHC Regulatory Areas 4C and 4D. The annual IPHC Regulatory Area 4C catch limit will decrease by the equivalent amount of Pacific halibut taken in IPHC Regulatory Area 4D in excess of the annual IPHC Regulatory Area 4D catch limit.

⁴ IPHC allocates the catch limit to IPHC Regulatory Area 2B as a combined commercial and sport catch limit (7,450,000 pounds). DFO allocates that amount between commercial and sport according to their allocation policy. In addition to the commercial fishery amount, 60,000 pounds has been allocated for research purposes. This amount also excludes any overage/underage adjustments. See Section 28 for sport fishing regulations.

⁵ For IPHC Regulatory Area 2C, the commercial catch limit adopted by the Commission includes catch (4,212,000 pounds) reported in the table plus estimated incidental mortality from the commercial fishery (123,000 pounds) for a total of 4,335,000 pounds. This total amount is included in the combined commercial and guided sport sector catch limit set by IPHC and allocated by NOAA Fisheries by a catch sharing plan (5,250,000 pounds).

⁶ For IPHC Regulatory Area 3A, the commercial catch limit adopted by the Commission includes catch (7,739,000 pounds) reported in the table plus estimated incidental mortality from the commercial fishery (371,000 pounds) for a total of 8,110,000 pounds. This total amount is included in the combined commercial and guided sport sector catch limit set by IPHC and allocated by NOAA Fisheries by a catch sharing plan (10,000,000 pounds).

13. Fishing Period Limits

- (1) It shall be unlawful for any vessel to retain more Pacific halibut than authorized by that vessel's license in any fishing period for which the Commission has announced a fishing period limit.
- (2) The operator of any vessel that fishes for Pacific halibut during a fishing period when fishing period limits are in effect must, upon commencing an offload of Pacific halibut to a commercial fish processor, completely offload all Pacific halibut on board said vessel to that processor and ensure that all Pacific halibut is weighed and reported on State fish tickets.
- (3) The operator of any vessel that fishes for Pacific halibut during a fishing period when fishing period limits are in effect must, upon commencing an offload of Pacific halibut other than to a commercial fish processor, completely offload all Pacific halibut on board said vessel and ensure that all Pacific halibut are weighed and reported on State fish tickets.
- (4) The provisions of paragraph (3) are not intended to prevent retail over-the-side sales to individual purchasers so long as all the Pacific halibut on board is ultimately offloaded and reported.
- (5) When fishing period limits are in effect, a vessel's maximum retainable catch will be determined by the Commission based on:

- (a) the vessel's overall length in feet and associated length class;
 - (b) the average performance of all vessels within that class; and
 - (c) the remaining catch limit.
- (6) Length classes are shown in the following table:

<u>Overall Length (in feet)</u>	<u>Vessel Class</u>
1-25	A
26-30	B
31-35	C
36-40	D
41-45	E
46-50	F
51-55	G

- (2) In British Columbia, no person shall fillet, mutilate, or otherwise disfigure a Pacific halibut in any manner that prevents the determination of minimum size or the number of fish caught, possessed, or landed.
- (3) The possession limit for Pacific halibut in the waters off the coast of British Columbia is three Pacific halibut^{9,10}.

⁹ DFO could implement more restrictive regulations for the sport fishery, therefore anglers are advised to check the current Federal or Provincial regulations prior to fishing.

¹⁰ For regulations on the experimental recreational fishery implemented by DFO check the current Federal or Provincial regulations.

attached.

- (e) Pacific halibut in excess of the possession limit in paragraph (1)(c) of this Section may be possessed on a vessel that does not contain sport fishing gear, fishing rods, hand lines, or gaffs.
 - (f) Pacific halibut harvested on a charter vessel fishing trip in IPHC Regulatory Areas 2C or 3A must be retained on board the charter vessel on which the Pacific halibut was caught until the end of the charter vessel fishing trip as defined at 50 CFR 300.61.
 - (g) Guided angler fish (GAF), as described at 50 CFR 300.65, may be used to allow a charter vessel angler to harvest additional Pacific halibut up to the limits in place for unguided anglers, and are exempt from the requirements in paragraphs (2) and (3) of this section.
- (2) For guided sport fishing (as referred to in 50 CFR 300.65) in IPHC Regulatory Area 2C:
- (a) The total allocation, including estimated harvest and discard mortality (wastage), is 915,000 pounds (415.04 metric tons).
 - (b) No person on board a charter vessel (as referred to in 50 CFR 300.65) shall catch and retain more than one Pacific halibut per calendar day.
 - (c) No person on board a charter vessel (as referred to in 50 CFR 300.65) shall catch and retain any Pacific halibut that with head on is greater than 44 inches (111.8 cm) and less than 80 inches (203.2 cm) as measured in a straight line, passing over the pectoral fin from the tip of the lower jaw with mouth closed, to the extreme end of the middle of the tail.
- (3) For guided sport fishing (as referred to in 50 CFR 300.65) in IPHC Regulatory Area 3A:
- (a) The total allocation, including estimated harvest and discard mortality (wastage), is 1,890,000 pounds (857.29 metric tons).
 - (b) No person on board a charter vessel (as referred to in 50 CFR 300.65) shall catch and retain more than two Pacific halibut per calendar day.
 - (c) At least one of the retained Pacific halibut must have a head-on length of no more than 28 inches (71.1 cm) as measured in a straight line, passing over the pectoral fin from the tip of the lower jaw with mouth closed, to the extreme end of the middle of the tail. If a person sport fishing on a charter vessel in IPHC Regulatory Area 3A retains only one Pacific halibut in a calendar day, that Pacific halibut may be of any length.
 - (d) A "charter halibut permit" (as referred to in 50 CFR 300.67) may only be used for one charter vessel fishing trip in which Pacific halibut are caught and retained per calendar day. A charter vessel fishing trip is defined at 50 CFR 300.61 as the time period between the first deployment of fishing gear into the water by a charter vessel angler (as defined at 50 CFR 300.61) and the offloading of one or more charter vessel anglers or any Pacific halibut from that vessel. For purposes of this trip limit, a charter vessel fishing trip ends at 23:59 hours (Alaska local time) on the same calendar day that the fishing trip began, or when any anglers or Pacific halibut are offloaded, whichever comes first.
 - (e) A charter vessel on which one or more anglers catch and retain Pacific halibut may only make one charter vessel fishing trip per calendar day. A charter vessel fishing trip is defined at 50 CFR 300.61 as the time period between the first deployment of fishing gear into the water by a charter vessel angler (as defined at 50 CFR 300.61) and the offloading of one or more charter vessel anglers or any Pacific halibut from that vessel. For purposes of this trip limit, a charter vessel fishing trip ends at 23:59 hours (Alaska local time) on

the same calendar day that the fishing trip began, or when any anglers or Pacific halibut are offloaded, whichever comes first.

- (f) No person on board a charter vessel may catch and retain Pacific halibut on any Wednesday, or on the following Tuesdays: 17 July, 24 July, and 31 July.
- (g) Charter vessel anglers may catch and retain no more than four (4) Pacific halibut per calendar year on board charter vessels in IPHC Regulatory Area 3A. Pacific halibut that are retained as GAF, retained while on a charter vessel fishing trip in other Commission regulatory areas, or retained while fishing without the services of a guide do not accrue toward the 4-fish annual limit. For purposes of enforcing the annual limit, each angler must:
 - (1) maintain a nontransferable harvest record in the angler's possession if retaining a Pacific halibut for which an annual limit has been established. Such harvest record must be maintained either on the back of the angler's State of Alaska sport fishing license or on a Sport Fishing Harvest Record Card obtained, without charge, from ADF&G offices, the ADF&G website, or fishing license vendors; and
 - (2) immediately upon retaining a Pacific halibut for which an annual limit has been established, record the date, location (IPHC Regulatory Area 3A), and species of the catch (Pacific halibut), in ink, on the harvest record; and
 - (3) record the information required by paragraph 3(g)(2) on any duplicate or additional sport fishing license issued to the angler or any duplicate or additional Sport Fishing Harvest Record Card obtained by the angler for all Pacific halibut previously retained during that year that were subject to the harvest record reporting requirements of this section; and
 - (4) carry the harvest record on his or her person while fishing for Pacific halibut.

¹¹ NOAA Fisheries could implement more restrictive regulations for the sport fishery or components of it, therefore, anglers are advised to check the current Federal or State regulations prior to fishing.

¹² Charter vessels are prohibited from harvesting Pacific halibut in IPHC Regulatory Areas 2C and 3A during one charter vessel fishing trip under regulations promulgated by NOAA Fisheries at 50 CFR 300.66.
