

SRB Meeting: 23 June, 2014

This meeting is intended as an update on progress made thus far in 2014. It is an opportunity for the SRB to provide constructive guidance on analyses that will be completed for the 2014-2015 process, including the following topics:

- Progress on stock assessment data processing and analysis
- Harvest policy and mortality accounting (responding to the Commissioners' and North Pacific Fishery Management Council's requests)
- Stock assessment modelling
- IPHC Five-Year Research Plan
- MSE process update

It is requested that the SRB provide a short summary report of this meeting for the IPHC Commissioner's work meeting, September 2014.
